Forecast For Grampian
Issued by Met Office Aberdeen
at 0400 on Thursday 04 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Spells of rain, sleet and snow, turning heavy later.

Today:
A cloudy day with spells of sleet or snow, turning increasingly persistent and heavy during the afternoon. Mainly rain along the Aberdeenshire coast. Feeling bitterly cold in the strong easterly wind. Maximum temperature 2 deg C (36 deg F).

Tonight:
Persistent snow inland giving some significant and disruptive accumulations, especially over high ground. Mainly rain or sleet at lower levels towards the east coast. Minimum temperature 0 deg C (32 deg F).

Friday:
Further long spells of rain, sleet and snow. The snow mainly across high ground inland but falling to lower levels towards evening. Strong easterly winds. Maximum temperature 3 deg C (37 deg F).

Outlook for Saturday to Monday:
The bitterly cold easterly winds will continue to bring sleet or snow showers. Further accumulations expected, even to low levels.
